XPRESSENTRY HealthCheck

Accelerate Workplace Health & COVID-19 Screening

XPressEntry's new HealthCheck feature set supports customized screening of personnel and visitor health information before entering work areas to comply with COVID-19 protocols, helping companies be safer and more productive.

XPressEntry HealthCheck can be installed alongside your existing systems or as a stand alone solution. Available immediately worldwide.

Benefits

- Create custom sets of health status questions
- Import data from any existing security system
- Read all company RFID badges
- Validate personnel at any access point

- Deny entry based on survey responses
- Record and securely store health information
- Automatic data removal according to guidelines
- Capture data from compatible BLE sensors

A healthy workplace is a safe workplace.
